Mauricio Cruz

FULL STACK DEVELOPER

olympocruz@gmail.com
+504 3301 2826 · Santa Rosa de Copán, Honduras
LinkedIn · olympohn.com

I'm a Full Stack developer with 4+ years turning ideas into real software. I care deeply about writing clean code that others can understand and maintain — not just code that works today, but scales tomorrow. I work with Clean Architecture and DDD because I believe structure matters as much as functionality. I learn fast, adapt better, and enjoy both backend and frontend equally.

01 Experience

Jan 2024 – Present

Full Stack Developer | Founder

Inversiones Olympo · Santa Rosa de Copán, Honduras

- Full Stack development focused on performance, Clean Architecture and DDD in production systems.
- CI/CD implementation, automated testing, security auditing and database optimization.
- Agile project management with multidisciplinary teams.
